About US

Clearwater Creations are Certified Aquascape Contractors as well as Certified Horticulturalists. We have been building and maintaining award winning water features for nearly a decade. Being Certified Aquascape Contractors and Certified Horticulturalists is what sets us apart from your typical landscape contractor. We have the training, knowledge, and expertise required to construct and maintain beautiful, professionally installed Ecosystem Ponds and Water Features. Our ponds and water features not only add tremendous value to your property but also add a place of serenity for your whole family to enjoy. Please follow us on our Facebook page or visit us at www.clearwater-creations.com to stay up to date with the latest news and events surrounding the entire pond industry!

Helpful Hints

We highly recommend that your pond or water feature receives a full spring cleaning every year. Regular spring cleanings will help ensure that your pond or water feature remains low-maintenance, and hassle-free throughout the year. When the excess nutrient load is removed from the pond, so are the nutrients that would otherwise encourage algae growth and create poor water conditions. Spring Cleanouts should be performed early in the season while the water and air temperatures are still cool to allow an easy transition for plants and fish. For optimal water quality, we also recommend treating your pond regularly with Beneficial Bacteria to combat against algae blooms as the temperatures rise during the season.

Terms and Conditions

To avoid any interruptions or additional charges on the day of your appointment please have some of the following items ready. Garden hoses ready and water turned on to the outside of your house. All pond related products such as pumps, filters, lighting, etc. must be easily accessible. Hydro outlets must be turned on or in working order. If you do not have a compost there will be an additional waste disposal fee for organic waste. If you need help determining which service package you need, please call and we will gladly assist you. Ponds that require a water truck to re-fill your pond can be pre-arranged by Clearwater Creations at owner's expense. (Please call ahead) Ponds that require pots and soil for plant splitting are subject to additional costs. Appointments that are not cancelled 24 hours in advance are subject to a loss of discounted service rate if not rescheduled within one week's time. Promotional 20% discount is only valid until February 28, 2018 accompanied with pre-payment. HST applies to all prices listed above.

I have read and understand the terms and conditions
